

# OPIOID SETTLEMENT TECHNICAL ASSISTANCE LEARNING SERIES

## ABOUT THE EVENTS

*This monthly series of educational webinars will be organized and hosted by the Technical Assistance Collaborative in an effort to share information with communities surrounding best practices for opioid related issues. Attendees will exchange information with leading researchers to determine community needs, and learn about best practices for the domains of the state opioid pillars. The goal of this series is to assist county, city and township officials who have received settlement funding and are involved and/or interested in learning more about evidence-based practices and strategies to help remediate opioid overdoses in their communities.*

**NOVEMBER 12, 2024**

Time: 1:00 p.m. - 2:30 p.m.

Topic: Expanding the Clinician Workforce and Sharing Prevention Efforts in Michigan: What Supports are Available?
